Your cabinet project, on two pages.

Capture the decisions that matter before comparing products or proposals.

Neighborhood / ZIP

Room and project stage

01 Name the two biggest problems

For example: pans out of reach, worn fronts, poor prep space or a sticking drawer.

02 Separate what stays from what changes

Keep / reuse

Replace / change / undecided

Include cabinets, countertops, flooring, sink position, appliances and the room layout.

03 Record the useful room details

Rough dimensions or a drawing reference

Appliance model numbers / selected sink

Final measurements and order approval are separate from these initial notes.

04 Note access and connected work

Doorways, turns, stairs, building rules, staging and any plumbing or electrical changes.

Put each proposal on the same footing.

Write I = included, E = excluded or U = undecided, plus a short specification.

Scope item	Proposal A	Proposal B	Proposal C
Provider / proposal reference			
Cabinet schedule quantity, sizes, construction			
Fronts and finish door style, material, color
